

Exposing The Health Freedom Movement

Operation Hang-out A limited hangout or partial hangout is a tactic used in media relations, perception management, politics, and information management. - Manipulating Perception: The Role of the Limited Hangout in Information Control

A "limited hangout" strategy involves the deliberate disclosure of selected information to prevent the discovery or exposure of more important or damaging details. In other words, some truths (often relatively minor or less damaging) are released to distract attention from, or cover up, larger and more damaging secrets.

Del's role mirrors a limited hangout operation as do so many others. A morsel of truth is unveiled- vaccines can be dangerous. **We want "safer vaccines."** Yet this morsel is swiftly shrouded in layers of deception, we can make vaccines safer- and misdirection, guiding the narrative back into controlled territory. **There is no such thing as safer vaccines period.**

(This shocking compilation barely scratches the depth of criminality and shady pathways. This is solely intended to spark your own research for the purpose of exposing those who aid in grand deception in many arenas. From the climate engineering cover up to the toxic injections and everything in between. Those who claim to be in the "Global Health freedom movement" demands answers to so many questions and motives for those of us left in the "wake" of their influence.

*****DEL BIGTREE/LEE NESTOR Family*****

Hollywood threads of actors run deep in the Bigtree family

Del's mother: Norma Bigtree- Hollywood age 4 stars in Curley McDimple(a Shirley Temple spoof) sharing the limelight with Barry Manillow and Bernadette Peters

Dels Father-Jack Groverland (not his birth name) Fritz Arnebold was his birth name on record- an ordained Unity minister for 4 decades, a literary prowess gives life to books, a screenplay that finds its place in vibrant realm of **Hollywood**.

Dels Wife- Lee Nestor- Known for her roles as an **actress**, particularly in the film "**Sex and Sensuality**" (2007) and "**Vaxxed: From Cover-Up to Catastrophe**" (2016)

2003-Del directed "**Partners**" **Starring Del's wife Lee Nestor** -The story involves one woman lying in bed while another woman sexually pleasures her under the covers.

In 2013 Lee was Design director for special projects and Oleg Cassini

It seems that many now involved in the safer VaxXed movement directly or indirectly were involved in questionable professions in typical Hollywood style

THE KENNEDY CONNECTION

Oleg Cassini was a renowned fashion designer born on April 11, 1913, in Paris, France, to a Russian diplomat and an Italian countess. He came from a family of Russian aristocracy with maternal Italian ancestry. Cassini established his reputation in the United States after moving there in the 1930s and worked with Paramount Pictures early in his career. He became particularly famous for **designing First Lady Jacqueline Kennedy's** wardrobe. *This weaves a connection to Jaqueline Kennedy and sets the stage for a connection between the Kennedy lineage and a bridge that brings DEL into the fold.*

Marianne Nestor (Lee Nestor's aunt) secretly marries Oleg Cassini

Peggy Nestor- is **Lee Nestors (Del's wife)** mother. Marianne is Peggy's sister who was Cassini's future wife. Who did not show marriage certificate until 2006 **after** his death. **Marianne and Peggy Nestor** controlled the Cassini estate.

This is why we see LEE NESTOR in "Cassini Perfume" advertisements.

Oleg Cassini's brother, Igor was married to Charlene Wrightsman Cassini, the daughter of the Charles B. Wrightman who was the neighbor of **Hollywood Kingpin Joseph P. Kennedy, Sr. (RFK and JFK's father).**

**Igor Cassini
Indicted
In Lobbying**

By TAD SZULC
© New York Times News Service
Washington, Feb. 8. — Igor Cassini, a New York society columnist and international publicity agent, was indicted Friday by a federal grand jury for "willfully and unlawfully" failing to register as an agent for the former Trujillo dictatorship in the Dominican Republic.

Attorney General Robert F. Kennedy said Cassini "assertedly shared in nearly \$200,000 in payments from the Dominican Government" resulting from separate contracts in 1959 and 1960 and again in 1961.

Although the Justice Department's announcement of the indictment made no mention of it, documents obtained by The New York Times from the Trujillo archives in Santo Domingo showed that while Cassini was negotiating the 1961 contract he went on a highly confidential mission to the Dominican Republic for President John F. Kennedy.

It was Bobby Kennedy Sr. (**RFK Jr.'s father**) who indicted Igor Cassini.

*Again, this is hardly scratching the surface of the Del/Kennedy connection but we now understand that **Del has links to Hollywood and direct links to the Kennedys through his wife, Lee Nestor**. The entire Kennedy family are Hollywood Elites. Please continue researching and connecting the dots.*

THE DEL TEAM

This by no means is an exhaustive list, however, its important to know a bit about what shadows those who are in this “movement” are, their training or other involvements. I have listed extra names for your own research.

Erin Olszewski In Oregon, Erin stated she received psychological operations training at **Fort Bragg**. It is the first time she admitted this fact publicly. She focused on her “**undercover nurse**” stint in New York. Olszewski admitted working undercover in Iraq on an Alex Jones interview in 2020.

Olszewski created multiple non-profits. For example, she abandoned Florida Freedom Alliance in 2019 within three months of it forming.

Kevin Tuttle assisted Erin Olszewski to orchestrate protests and the creation of **multiple** non-profit companies. These actions were part of a broader strategy to cultivate influence and establish operations that would benefit Del Bigtree and other stakeholders, **including vaccine patent holder Doctor Paul Offit**

Fort Bragg's psychological warfare training, now known as Military Information Support Operations (MISO), is designed to confuse and weaken the morale of adversaries using various methods. The training includes the use of native language media, television, radio, leaflets, pamphlets, and newspapers to spread targeted messages.

Kevin Tuttle is a “former” **Air Force Public Affairs officer**, also training at **Fort Bragg**. He also created a shell non-profit supposedly to help parents of vaccine-injured children. As mentioned Kevin assisted Erin Olszewski to orchestrate protests and the creation of multiple non-profit companies. Where did the collected money go?

Catharine Layton-Chief officer for ICAN. She holds certificates in Immunology and Vaccines and Viral Immunology from Harvard Medical School

More undercover military agents on the Del team to investigate:

Jonathon Lockwood

Josh Coleman

Denise Aguilar

Paul Allan Offit is an American pediatrician specializing in infectious diseases, vaccines, immunology, and virology. He is the co-inventor of a retrovirus vaccine.

Paul Offit is an important person to know about because he is directly connected to the opposition and false anti-vaccine movement which includes low level liars and grifters such as Undercover "Nurse" **Erin Marie Ostrowski**, Denise Aguilar, Jamie Lynn Juarez, Lynette Marie Barron, Adam Ringham, Chris Kirkoff, **Kevin Tuttle** and many others.

They all roll up to and work directly with Del Bigtree and RFK

Lynette Marie Barron

Paul Offit "a baby's immune system could handle as many as 10,000 vaccines."

ANDREW WAKEFIELD

Andrew Wakefield OWNS a patent on the MMR vaccine and several others.

<https://patents.justia.com/patent/6534259#citations>

Excerpts from the Patent:

What is needed therefore is a **safer vaccine** which does not give rise to these problems, and a treatment for those with existing IBD. I have now discovered a combined vaccine/therapeutic agent which is not only most probably **safer to administer to children and others by way of vaccination/immunization**, but which also can be used to treat IBD and RBD whether as a complete cure or to alleviate symptoms.

****The compositions may be particularly adapted for use as a vaccine/immunization or for use as therapy for IBD or RBD**

****The present invention relates to a new vaccine/immunization for the prevention and/or prophylaxis against measles virus infection and to a pharmaceutical or therapeutic composition for the treatment of IBD(Inflammatory Bowel Disease**

Conflict of Interest:

Wakefield had undisclosed financial **conflicts of interest**.

He had also filed a patent for a competing vaccine.

2012- **The Selz foundation** gave Andrew 200,000

****POLLY TOMMEY ****

Tommey, who says she discusses campaigning ideas with a friend who used to work for an advertising agency, came up with the idea of copying the famous Hello Boys adverts by Wonderbra

It was all about getting noticed - and it worked. "I'm 43, and the last model who did it was in her 20s, so I wasn't that confident," she says. "But I thought, it's not about me, it's about the kids." Within days, all three party leaders had been in touch pledging their support.

Polly Tommey is director of programming for CHD-TV. She is a book author, founding editor-in-chief of the world's preeminent autism magazine, The Autism File and co-founder of the Autism Media Channel. An outspoken autism advocate and founder of the Autism Trust

She immigrated to the US shortly after her best friend Andrew Wakefield attained his papers. They've received millions in donations.

1 Million was given to the business arm of the Autism media channel LLC which is owned by Andrew Wakefield and Polly Tommy

Hello Boys.

VAXXED concluded with a long list of sponsors. So they apparently had a fair amount of money to work with to produce the film. The film was a product of the Autism Media Channel. **Starting with in 2016 AMC Foundation took in \$1,325,098 in contributions and grants. \$1.3M**

QUESTION: Is *GRIFTING* criminal? You decide.....

*****SELZ FOUNDATION-Lisa and Bernard SELZ -2019-2020*****

Bigtree introduces episodes of The Highwire by telling viewers “*I don’t want corporate sponsors telling us what to investigate or what to say, instead, you’re our sponsors.*”

However, filings for ICAN’s largest donor, the **Selz Foundation** show it donated more than **\$2.9 million between 2016 and 2018**

ICAN was founded in 2016 by television producer Del Bigtree, after the release of the movie VAXXED. **ICAN was established with a \$100,000 grant from the Selz foundation.** Its budget ballooned to \$1.4 million in 2017, with **one million coming from the Selz**

Foundation, making ICAN the most well-funded anti-vaccination group in the United States that year.

In 2019, the Selz had stopped their funding, but ICAN received \$2.46 million funneled through the donor-directed charitable trust investment firm **T. Rowe Price**, out of total revenue of **\$3.46 million**. ICAN reported making \$5.5 million in revenue in 2020, a 60% increase from the previous year. [The group received a significant part of its funding in the early days of the pandemic from the charitable foundations from investment firm that anonymize donations: \$235,000 from **Fidelity Investments’ foundation (2021-22)**, \$600,000 from **The Vanguard Group’s foundation (2020 to 2022)**, \$400,000 from **Schwab Charitable (2020 to 2022)**, \$135,000 from the **Morgan Stanley Global Impact Funding Trust (2020 and 2021)**. It also received \$15,000 from **Donors Trust (2021)**. In 2022, ICAN received a total of \$13.4 million in funding, then \$23 million in 2023

In 2019, ICAN paid a salary of \$232,000 to Del Bigtree as its CEO, \$162,000 to its Executive Producer Jenn Sherry Parry, \$138,000 to its Chief Administrative Officer Catharine Layton, and 111,000 to Patrick Layton as Creative Director. By 2022, Bigtree’s compensation had increased to \$284,000. In 2023, the CEO earned \$234,000 while also working on **Robert F. Kennedy Jr. 2024 presidential campaign.** **What are these figures now?**

According to the Post, the **Selz Foundation provided 75% of the funding for Informed Consent Action Network (ICAN)**, Selz Capital owns multimillion dollar holdings in the drug companies

Flexion Therapeutics and Constellation Pharmaceuticals, as well as \$25.5 million in Amazon shares, \$15 million in Microsoft, \$10 million in Google and \$1.6 million in Paypal.

ICAN promotes parental choice in toxic vaccine decisions. Lisa Selz served as president in 2019 of ICAN, whose chief executive is Del Matthew Bigtree,

The 'Selz Foundation Hazor Excavations in Memory of Yigael Yadin' began in 1990 take place annually during the months of July-August. **The excavations are sponsored by the Philip and Muriel Berman Center for Biblical Archaeology at the Hebrew University of Jerusalem and by the Israel Exploration Society.** The project benefits from the financial support of the Selz Foundation (New York), the Edith and Reuben Hecht Fund (Israel), the Steven B. Dana Archaeology Fund (Las Vegas) and individual donors.

Robert F Kennedy Jr.

I challenge all narratives spoken by any "official." From RFK's masking of truth in the current issues being addressed, to include Geoengineering "[Just jet exhaust](#)" cover-up to the "safer toxic vaccines" and more.

Robert F. Kennedy Jr. Sept. 10, 2019:

"If you multiply the known adverse events from the MMR Vaccine by 100, you get 44,500 deaths and 8,900,000 injuries making the measles vaccine far worse than measles."

Children's Health Defense

Robert F. Kennedy Jr. March 2, 2025:

"MMR vaccine is crucial to avoiding potentially deadly disease. Vaccines not only protect individual children from measles, but also contribute to community immunity."

Anyone who claims to "know" the truth or simply cant fathom theatrical lies and cover-ups to this degree, please do not believe a word stated here but **RESEARCH** for yourself. I ask "would the government ever tell you the truth? Would they ever tell on themselves? Absolutely not. **It is up to us to expose the grand deception and lies.**

The Best lies are wrapped around a piece of truth-unknown

The greatest deception men suffer is from their own opinions."

Its important to note “follow the money.” Give the people “just enough” to make them believe. From Sexual misconduct to Hollywood connections to large sums of money to PHARMA patents and promotion of injections, who are these people?

I would like to acknowledge and thank Greg Wyatt for his incredible research, and intense dedication to expose the Trojan Horse.
